Vision

Sri Arunodaya Educational Society is a key pioneer in providing the education to the region of telangana where education for some people was just their dream but not accessible. Then started a mission in the year 1984 by Mr. G. Rajesham and Mrs. G Aruna.

Sri Arunodaya Educational Society was the first inspired institutions in City of Warangal when there were no private colleges, computers, advanced transportation and infrastructure in this city.

The Vision of Sri Arunodaya is to provide the best education with modern amenities to the students and make them great reformers, entrepreneurs and contribute to this world. We dream a Peace World and Green World.

We educate the younger generation to think for a reformation. We always strive to bring, encourage and implement new methodologies, strategies and technologies for the benefit of the students who envision the future of the modern world. Many students have been already successful in their career working in different parts of world.

Sri Arunodaya also fosters the spirit of national unity and patriotism through such diverse community care activities like NSS & NCC and Community Projects. In addition, we also arrange 'site visits' to local industrial Units and premier academic & research institutions the same encourages the all around development of student.

We are proud of every student and staff that felt the vision and is contributing for this vision.

"Successful People don't do different things but they do things differently" is the thought we evoke in our students and staff.
